way that the agricultural operations do not suffer throughout the country?

THE MINISTER OF STATE IN THE MINISTRY OF CHEMICALS AND FERTILIZERS (SHRI RAMESH BAIS): (a) and (b) Currently, Urea is the only fertilizer which is under distribution control of Government of India. The distribution of phosphatic and potassic fertilizers has been decontrolled since 25.8.1992. The" Government's intention is to ultimately decontrol all fertizers including Urea after taking into account its fiscal capacity so as to achieve an optimum ratio in the consumption of different types of nutrients on the one hand and making available fertilizers to the farmers at a reasonable price on the other. However, the time frame decontrol and deregulation of distribution of Urea is not firmed up as yet.

(c) At present, Urea is the only controlled fertilizer and for which allocations are made State-wise. Urea supplies are arranged to the States as per allocation on aggregate basis by the Government of India. The distribution within the State is arranged by the respective state Governments. The supplies and availability of decontrolled fertilizers are arranged by the State Governments directly through the suppliers. The existing arrangements have generally worked well.

Fertilizer units in the Country

896. SHRIMATI BASANTI SARMA: Will the Minister of CHEMICALS AND FERTILIZERS be pleased to state:

(a) the details of public and private sector chemical fertilizer units functioning at present in the country, particularly in Assam;

(b) the types of chemical fertilizers produced therein;

(c) whether these units have increased their production capacity during the last three years; if so, the details thereof; and

(d) the steps being taken by Government to increase production of chemical fertilizers in the country?

THE MINISTER OF STATE IN THE MINISTRY OF CHEMICALS AND FERTILIZERS (SHRI RAMESH BAIS): (a) and (b) Consolidated information on the major fertilizers units functioning at present, alongwith type of fertilizer produced, is given in the Statement-I. *(See* below)

(c) Details of the units which have increased their production capacity during the last three years is given in Statement-II. (*See* below)

(d) The fertilizer industry has adopted the following strategy to increase the fertilizer production:

(i) Expansion/retrofitting/revamping of existing fertilizer plants;

(ii) Overcoming the constraints in the avilability of natural gas by exploring the possibility of impart of liquefied national gas and installing dual fuel/feedstock facilities in the existing plants; and

(iii) Setting up joint venture products in countries having abundant and cheap raw material resources.

The following incentives are available for increasing the production of urea in the country:

(i) Normally, no industrial licence is required for setting up a fertilizer plant.

(ii) Nominal basic customs duty on import of capital goods for setting up of new plants/modernisation of existing units.

(iii) Deemed export benefits to indigenous suppliers of capital goods to fertilizer projects provided such supplies are made under the procedure of international competitive bidding.

(iv) Nominal duty on import of fertilizer raw materials and intermediates.

(v) Reasonable return on investment to the entrepreneurs under the Retention Price-cum-Subisidy Scheme, at present applicable to urea.

Statement-I

Details of fertilizer units functioning at present in the country and types of chemical fertilizers produced

(A) Major units manufacturing nitrogenous & phosphatic fertilizers

Progress of Assam Gas Cracker Project

897. DR. MANMOHAN SINGH: Will the Minister of CHEMICALS AND FERTILIZERS be pleased to state:

(a) whether it is a fact that the Assam Gas Cracker Project has made no progress since 1996;

(b) if so, what are the reasons therefor; and

(c) what steps are envisaged to accelerate the pace of implementation of this project?

THE MINISTER OF STATE IN THE MINISTRY OF CHEMICALS AND FERTILIZERS (SHRI RAMESH BAIS): (a) to (c) M/s. Reliance Assam Petrochemicals Ltd. (RAPL), a joint venture of the Assam Industrial Development Corporation (AIDC) and Reliance Industries Ltd. (RIL), holds a LOI for setting up a Gas Cracker Project in Assam. M/s. RAPL have taken initial steps such as Environmental Impact Assessment study, discussions with process licensors and technology supplier etc. Government of Assam and M/s. RAPL are in the process of finalising the site for location of the project. Feedstock Supply Agreement between Oil India Ltd. (OIL) and RAPL has been concluded in all respects except for issues relating to Liquidated Damages (LD).

On finalisation of the Feedstock Supply Agreement(s) and
